Best Practices - Bouquet Making and Flower Arrangement
2021-2022

With an intention to empower the girl students and to inculcate some new ideas, the department of Botany has decided to conduct a bouquet making and flower arrangement workshop on 28th October 2021.

Interested girl students from B.Sc were trained on different styles of bouquet making and flower arrangement. All the techniques, materials and other necessary knowledge pertaining to both the activities were shared with the students. This equips the students to carry out the activities for personal purposes as well as for college functions reducing the dependency on outsourcing. This activity was also aimed to bring out the creativity and also as a confidence building activity for the girl students. The Head of the Department, K. Sai Venkatesh, Lecturers Dr. J. Koteswar Rao and Smt. S. Padmavathi organized the workshop for the students. The enthusiastic participation of the students was crucial for the success of the programme.

Best Practices - Organic Banana Cultivation

The Department of Botany initiated cultivation of organic banana in the Botanical Garden as one of the best practices of the Department. The students of II and III BSc (BZC, BiBC & MiBC) are engaged in the banana cultivation by collecting the best varieties of the crop from their villages followed by planting, maintenance, and monitoring of the plants with proper irrigation and organic manuring. The first cropping is done on 11.02.2022 by students and it is distributed among staff and students at the college. This practice inculcates the habit of organic farming in the minds of young students, and it promotes the utilisation of organic manures and signifies the same. Utilisation of Green manure is one of the adaptations for the mitigation of chemical fertilisers that generally show adverse effects.

Best Practices - Eco-friendly birthday celebrations

The Department of Botany initiated a novel idea of planting a sapling or plant in the campus on the birthday of students of B.Sc., Botany consisting of BZC, BiBC and MiBC programs. The faculty members of the Department Mr. K. Saivenkatesh, Dr. J. Koteswara Rao and Smt. S. Padmavathi motivated the students from the academic year 2021-22 to participate actively in this Departmental Best Practice. This practice is started with Mrs. Gracy of I BZC on 14.12.2021. Dr. M. Bhaskar Reddy, Principal and all the faculty of the Department have taken part in the occasion along with I BZC students. This helps in transforming campus into lush green area thereby promoting green campus initiatives.
